CEO MESSAGE

Corporate Catalogue

At BBG Energy, we place honesty and reliability at the core of everything we do, making them the foundation of all our partnerships and projects. Our mission is not only to deliver high-quality products and services but also to ensure that our solutions are comprehensive and tailored to the real needs of our clients. This approach supports their sustainable growth and enhances operational efficiency.

Over the years, our name has become synonymous with excellence. We have successfully built a trusted network of partnerships that extends from Azerbaijan to Europe and the Middle East. Today, as we expand our global operations, we continue on the same path — guided by the principles of innovation, sustainable development, and creating real value for all stakeholders.

BBG Holding

OUR HISTORY

Corporate Profile

Laying a Strong Foundation

BBG Energy was established in 2015, beginning its operations in the oil & gas sector and industrial supply. During this period, the company built a solid foundation, established key industry partnerships, and delivered high-quality solutions. Thanks to its commitment to excellence, BBG quickly gained recognition and created a reliable platform for future growth and expansion.

Strategic Expansion and Diversification

As BBG Energy expanded its business, it entered the construction and engineering sectors, seizing new opportunities. By executing large-scale projects, the company diversified its areas of activity and further strengthened its market position. Since 2021, BBG has evolved into a multifaceted organization, offering specialized workforce solutions and construction services, distinguished in the sector by its innovative approach and professional standards.

Innovation and Market Leadership

Focusing on innovation and operational excellence, BBG Energy has integrated modern technologies and digital transformation into its business model, strengthened its material supply capabilities, and further expanded its international partnerships. By 2024, the company had risen to a leading position in the market, fully prepared for sustainable growth and continued expansion.

COMPANY OVERVIEW

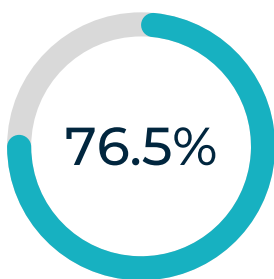

Corporate Profile

The year 2024 marked a turning point for BBG Energy, as the company transitioned from losses to profitability and expanded its business operations across various sectors.

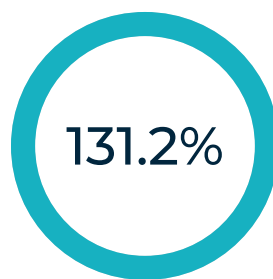

KEY ACHIEVEMENTS

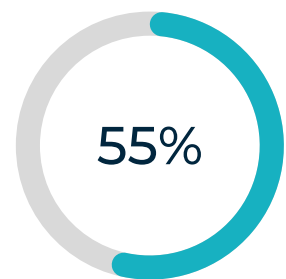

In 2024, BBG Energy achieved remarkable financial and operational milestones. Strong revenue growth, a successful return to profitability, cost optimization, and expansion into new revenue streams ensured the company's long-term stability and reinforced its market leadership.

BBG Energy achieved a 76.5% increase in revenue through strong performance in business expansion, material supply, and engineering workforce services.

Successfully transitioning from the 2023 fiscal year, the company increased its profit by 131.2% in 2024, reflecting a significant improvement in financial management and operational efficiency.

BBG Energy reduced depreciation expenses by 55.0% through optimizing asset utilization and strengthening financial stability. This also contributed to enhanced operational efficiency and improved long-term sustainability.

UN GLOBAL COMPACT

Corporate Profile

Founded in 2015, BBG Energy proudly announces its participation in the United Nations Global Compact as of 2024.

Throughout all areas of its operations, the company has consistently strived for excellence, standing out for its commitment to sustainable development and responsible business principles.

KEY ACHIEVEMENTS

By joining the United Nations Global Compact, BBG Energy reaffirms its commitment to integrating the UN's 10 Principles into its business strategy and corporate culture. These principles focus on:

- Human Rights
- International Labour Standards
- Environmental Sustainability
- Anti-Corruption

At BBG Energy, we recognize that businesses play a vital role in building sustainable and equitable societies.

WHY WE JOINED THE UN GLOBAL COMPACT

In today's world, companies are increasingly held accountable for their impact on the environment and society. In a context where stakeholders demand greater transparency and responsibility, the UN Global Compact provides a structured framework for aligning business practices with internationally recognized standards.

By integrating the principles of the UN Global Compact into our operations, we aim to:

- Reduce risks and enhance long-term business resilience.
- Foster innovation, efficiency, and value creation.
- Attract top talent and build stronger relationships with stakeholders.
- Contribute to a more sustainable world for future generations.

COMMITMENT TO THE UN GLOBAL COMPACT

BBG Energy is committed to environmental responsibility, ethical business practices, and fair labour standards. Our CSR initiatives are aimed at promoting sustainability and reducing environmental impact. Starting in 2025, we will submit an Annual Communication on Progress (COP) reflecting our commitment to the UN Global Compact. By joining the Global Compact, we reaffirm our dedication to a responsible and sustainable future.

OUR SERVICES

Corporate Profile

BBG Energy delivers comprehensive, innovative, and high-quality solutions across a wide range of industrial sectors. Our activities focus on market development, strategic investments, and sustainable business growth. With a strong commitment to efficiency, innovation, and excellence, we continuously enhance our expertise, optimize operations, and build long-term partnerships.

Our dedication to providing tailored services, integrating modern technologies, and driving business transformation solidifies BBG Energy's position as a trusted industry leader and ensures its sustained global competitiveness.

MATERIAL SUPPLY

We optimize operations by ensuring efficient procurement, high-quality supply, and seamless logistics, leveraging strategic partnerships and advanced supply chain management.

SCAFFOLDING SYSTEMS

We provide safe and high-quality URTIM-manufactured scaffolding solutions for industrial and construction projects, ensuring sustainability and efficient execution.

POWER GENERATORS

We supply durable and efficient PRAMAC gas and diesel generators, ensuring reliable power for diverse industrial and commercial applications.

CONSTRUCTION

We ensure efficient construction processes, high-quality materials, and seamless project execution, optimizing operations through strategic partnerships and advanced supply chain management.

INDUSTRIAL MAINTENANCE

We provide reliable industrial maintenance services, ensuring equipment longevity and operational efficiency through modern technology and professional solutions.

INSULATION WORKS

We deliver high-quality thermal and cold insulation solutions, enhancing energy efficiency, reducing heat loss, and ensuring long-term durability.

OUR PRODUCTION

Corporate Profile

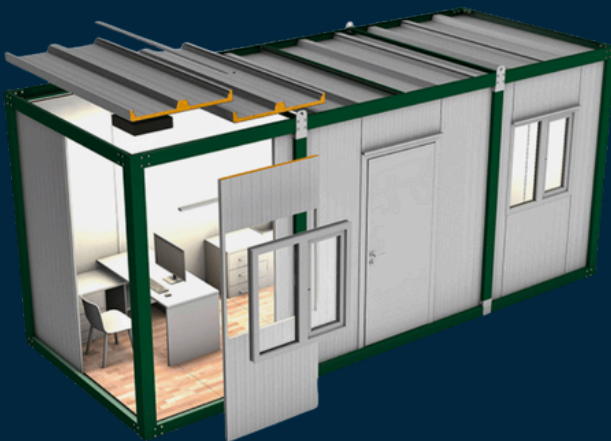

BBG Energy delivers innovative and functional production solutions tailored to meet the diverse needs of its clients. Our manufacturing processes are based on modern technologies and carried out in full compliance with high-quality standards.

Our production capabilities include:

- Modular Containers – for offices, dormitories, canteens, sanitary units, cold storage facilities, and other auxiliary buildings.
- Industrial Solutions – customized structures for construction, logistics, energy, and other sectors.
- Refrigeration and Storage Systems – for long-term preservation of food and industrial products.
- Customized Systems – manufacturing solutions adapted to unique client requirements and special designs.

Operational efficiency, quality, and reliability are our top priorities. The materials used in our production stand out for their high insulation capacity and durability, allowing us to provide clients with effective and cost-efficient solutions for both short-term and long-term projects.

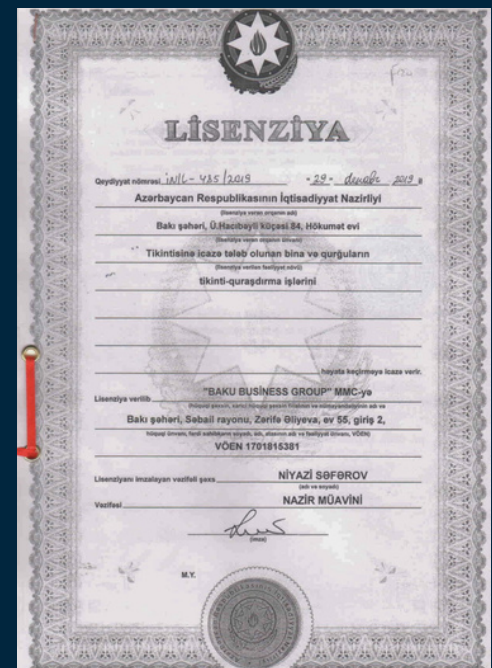

At BBG Energy, our mission is to be a trusted partner for local and international projects, enhancing global competitiveness through modern production capabilities that fully comply with industry standards.

CERTIFICATES

Corporate Profile
